INSTRUCTIONS

1. Disconnect the power adaptor from the base of the diffuser before adding water.
2. Remove the outer shell and upper cover to access the water reservoir.
3. Add water to the reservoir paying special attention to the water level.
Do not exceed the max fill line of the diffuser.
4. Add fifteen to twenty drops or more of essential oil to a full reservoir of water.
(3 - 5 drops per 100mL of water)
(15 - 20 drops for 400mL full diffuser)
5. Replace the upper cover and outer shell back on the diffuser before operating.
Be sure to align the notches and channel of the upper cover with the reservoir to ensure proper operation.
6. Connect the power adaptor to the base of the diffuser, then connect to your power supply.
7. Press the "ON/OFF" button to activate the diffuser for 60 minutes.
8. Press the "ON/OFF" button multiple times to set the duration of use.
(60 minutes / 120 minutes / 180 minutes / Continuous)
9. Press the "MIST" button to adjust spray intensity. (Light / Medium / Heavy)
10. Press the "LIGHT" button to cycle through different color selections.
Hold the "LIGHT" button for two seconds to turn the light off.

The diffuser will automatically shut off according to the time selected or when it detects a low water level in the reservoir. The diffuser can also be manually shut off by holding the "ON/OFF" button for two seconds.

CLEANING

1. Power off and unplug the diffuser before cleaning.
2. Pour out any remaining water from the reservoir.
3. Wipe upper cover and water reservoir with a soft cloth. Gently use a cotton swab to clean around the flat, circular diode in the center of the reservoir. Do not use acids, enzymes or detergents, as this may cause the diffuser to malfunction.

ACCIDENTAL SPILLS

In the event of the diffuser being knocked over or tipped during use, please follow the steps below to avoid a malfunction:

- » Unplug the diffuser immediately and remove cover.
- » Pour out any remaining water and essential oils from the reservoir.
- » Make sure all water has drained from the diffuser and allow it to dry for at least 24 hours before resuming normal operation.

IMPORTANT INFORMATION

- » Pure or tap water is recommended. Do not use mineral or sparkling water.
- » Always check and fill with water first before adding essential oil(s).
- » Do not operate the diffuser if the water reservoir is empty.
- » Do not overfill the water reservoir.
- » Place the diffuser on an even surface and do not move it when it is filled with water and/or plugged in.
- » When the diffuser is not in use, empty the water reservoir, unplug and clean with a soft cloth.
- » Clean regularly - when changing essential oils or after every 5-6 uses - to avoid malfunction.
- » Only use the diffuser with the supplied adapter.
- » Do not touch any part of the diffuser with wet hands.
- » Do not use for more than ten hours at one time. If diffuser is operated for ten hours, wait one hour before restarting to avoid damage.
- » Keep cord clear of pathways, and do not pull forcefully at any time.
- » ALWAYS KEEP OUT OF REACH OF CHILDREN AND PETS.
